GERALD BALFOUR'S MEASURE IN-TRODUCED IN THE COMMONS.

John Morley Says It Bristles with Objectionable Features - Comment of the London Press.

LONDON, April 13 .- Mr. Gerald Balfour, Chief Secretary for Ireland, introduced the new Irish land bill in the House of Commons to-day. It is of much wider scope than that of Mr. John Morley, who was Chief Secretary for Ireland in the late Liberal government, and is on the principle of purchase by the occupying tenant as being the ultimate solution of the land question. In introducing the bill the Chief Secretary for Ireland said that the government believed that the land question was at the root of the agitation for home rule. The bill provided to facilitate the purchase of holdings and prevented the lessee from having rent levied on his improvements. It embodied the most noncontentious proposals of the bill of 1895 and modified others. rears, to be in just possession of his holding, leaving the landlord to recover the remainder of the arrears in the ordinary way. Continuing, Mr. Balfour said that the government had decided not to alter the statutory term of fifteen years for fixing a fair rent.

When Mr. Gerald Balfour had concluded Mr. John Morley, who was Chief Secretary for Ireland in the late Liberal Cabinet. and the author of the Irish land bill offered in the last Parliament, arose to reply. He said that it was impossible to criticise such a complex bill until he had seen it printed, but it was evident that it bristled with obectionable features, and would require a leal of amendment in committee. He warned the government that if they wished to pass it they must withdraw their educa-

John Dillon, the chairman of the Irish parliamentary party, declared that the bill was extremely disapointing to Ireland, and was a further proof of the incapacity of Parliament to legislate for Ireland. He said the measure was very inadequate in fixing fair rents and dealing with evided tenants. But he admitted that it was an improvement on the bill recently put forward.

The bill was read the first time, and

second reading was fixed for April 27.

A reporter, looking for some representative opinions on the new bill, sought an nterview with John Redmond on the subect. He admitted that the bill had so good points, and was better than Mr. Mor-Mr. Morley's was not. He thought the im-provement clauses would benefit the tenint, but the purchase clauses, he said, were the most important. Horace Plunkett, member of Parliament for Dublin county, South was also asked for his opinion. He regard the bill an honest attempt to bring the land question within a measurable distance of

Purchase would not be compulsory, the Chief Secretary for Ireland proceeded by saying, as such a scheme would require possibly £200,000,000, while the terms could not be so advantageous to the tenant. The terms for repayment would be extended from forty-nine to over seventy years, and relief would be given to the tenants toward the end of their tenancy, when they are more likely to ength of tenancy every purchaser could buy in a less than twenty years' purchase. While at the start there would be 20 per cent. less rent than they were now paying, they would also be relieved of 10 per cent, during the first thirty years. The bill, he said, extended the powers of the conjested districts board, enabling it to borrow to the extent £1,500,000. With regard to evicted tenants Mr. Balfour said the government had already declared that they could not consent to the use of public money, believing that aid should come from private sources, but they were prepared to re-enact the clause of the land act for a year, and so act as mediators.
Mr. Gerald Balfour concluded by saying that
the bill was an honest endeavor to facilitate

the substitution of peasant ownership for Comment of Newspapers.

LONDON, April 14.-The parliamentary correspondent of the Standard says of the Balfour land bill: "The reception accorded to the land bill was quite as favorable as the government expected. Mr. Morley's peech has created the impression that the position will not force a division against second reading of the bill. Should it be found impossible to carry the whole bill it is probable that only the fair-rent clauses will be proceeded with."

The Daily News, the liberal organ, de-An editorial in the Times says: "The most serious objection to the bill is its length and complexity. A measure requiring three hours for expounding by a Minister remarkable for his conciseness of expression and closeness of reasoning can hardly be adequately dealt with in less than an entire

The correspondent of the Times in Parliament says: "The Parnellites admit that the land bill is skillfully devised, and they approve the purchase clauses. The anti-Parnellites are more chary of their approbation. Timothy Healy remarked that Mr. Balfour seemed to have taken a Roentgen photograph and got a skeleton of Mr. Morley's scheme, having discarded all the flesh, sinew and muscle." sinew and muscle.

An editorial in the Chronicle (Liberal) on the new bill says: "It is primarily a pur-chase bill, and only in a dubious way a fair rents bill. It bids fair to resolve itself into an inflated scheme of purchase forced on the tenants by the hopelessness of get-ting justice from the land court."

SNOW DRIFTS TWENTY FEET DEEP IN THE MOUNTAINS OF COLORADO.

Damage by Wind in the Cripple Creek District-Shower of Mud in Wyoming-To-Day's Forecast.

DENVER, Col., April 13.-The great snow and windstorm which brought the trains to a standstill on the divide between Denver and Colorado Springs yesterday on all railroads except the Santa Fe, abated during the night, and to-day the sun shone brightly. The railroads were opened and trains moved to-day. At Monument and Palmer Lake, where trains were stalled, there is eight inches of snow on the level, and in places drifts are twenty feet deep. Further south the snowfall was even greater. At NEW IRISH LAND BILL Trinidad over two feet of snow fell during the day The hurricane drifted the snow into banks ten to fifteen feet high, blockading all thoroughfares. Traffic on all railroads came to a standstill. Two west-bound Santa Fe and one Gulf passenger train were tied up in Trinidad. On the Raton mountains the storm was more severe than anytwenty feet. The telegraph wires south of Trinidad are all down. The storm extended from La Junta to Las Vegas, but was not so severe south of Raton. In Pueblo the wind attained a velocity of fifty-four miles an hour. Two tall smokestacks of the Citizens' electric-light works were blown down. Glass was blown out in the business and resience sections of the city, and the electric light, telephone, telegraph and fire and po-lice wires were badly mixed.

On the plains to the east the storm will benefit the ranchmen, who have put in a large acreage of small grain, but it is believed some cattle perished in the blizzard. In Denver there was no snowfall worth mentioning, and the velocity of the wind was forty miles an hour, while on the di-vide it blew at the rate of seventy-five

Killed Her Nephew.

DENVER, Col., April 13.—The autopsy held to-day on the body of Willie Truesdale, the boy who was supposed to have been stabbed to death by Ackai, the Japanese cook, on the Homer ranch, Friday night, proved that he had been shot, the bullet being found in his heart. This bears out the account of the affray given by Ackai, who claims that Mrs. Miller, the boy's aunt, in trying to shoot him accidentally killed her nephew. The prisoner says that he killed the woman in self-defense.

ELECTRICAL PHENOMENON.

with Lead Glass Incandescent Bulbs.

DENVER, April 13.-A peculiar electrical phenomenon was noticed here yesterday by the experimenters in X rays at the Homeoepathic College. During the exposur, of a plate under the Crookes tubes one of the professors approached the big induction coil, holding an incandescent bulb in his hand Instantly the globe began to glow with bright blue light, which lasted as long as the On being removed from the influence of the coil the globe glowed at intervals for ten minutes, and when brought close to the minutes, and when brought close to the Crookes tube in action, its intensity was increased. The incandescent globe and the tube both were of lead glass, but the degree of vacuum was so high that magnificent effects were obtained. The college has ordered a number of Geissler tubes made from this glass, which has been condemned by the scientists of the past, but which gives good results a mile above sea level. The altitude, it is claimed, is responsible for the light degree of exhaustion obtained in the lamps and tubes, the light dry air avoiding what is and tubes, the light, dry air avoiding what is technically known as "air wash" in the

Judge Helm Sets Walling's Trial for May 7, Expecting to Be Through with Jackson in Two Weeks.

Special to the Indianapolis Journal. CINCINNATI, April 13 .- Colonel Nelson, legal representative of the Bryan family, assisting Commonwealth's Attorney Colonel Lockhart in the prosecution of the murderers of Pearl Bryan, has made the positive statement that neither Jackson nor Walling will be "called on to testify against each other, nor will they receive any promises of immunprosecution has an absolutely convicting case | Baron Von Buelow, the German embassador so conclusive and complete that it will send them both to the gallows as the brutal murderers of Pearl Bryan. Colonel Nelson is ready any day to begin the trial, confident of convicting both the prisoners of first degree murder. It is now not denied by the prosecution that they have some new and startling evidence in store, which will be brought

Notwithstanding the denial made by Col. Nelson that the prosecution knows nothing of the missing head, the Times-Star is in position to state, as was exclusively printed in these columns Saturday, that at the proper time the prosecution will introduce a witness who will not only divulge what disposition was made of the head of poor Pearl Bryan, but who disposed of it, how it was done and where and at what time.

The plan of campaign of the defense in the Jackson case will be to establish an alibi and break down the evidence introduced by the prosecution. Coachman Jackson, who will undoubtedly go on the stand for the prosecution, will be given a raking fire from all sides. Witnesses will be put on the stand who will show that the negro was in Cincinnati on the night he alleges he drove Jackson and Walling and Pearl Bryan to Fort Thomas, and many more will attack his reputation for veracity and good character.

DENIED BY BOOTH-TUCKER.

alvation Army Commander Says Ballington's Charges Are Untrue. CHICAGO, April 13 .- Commander Booth-Tucker, of the Salvation Army, denies the atest charges of Ballington Booth against the latter's father. He denies that General Booth objected to the prominence given the American flag by the Salvationists, and that he declared the time had come earrying it at the head of processions. Also that General Booth declared it his in-tention to divide the United States into three parts by north and south lines and annex them, so far as the work of the Salvation Army is concerned, to Canada.

Says Ballington Is Mistaken. CLEVELAND, O., April 13.-Staff Captain Parker, in charge of the Salvation Army in Cleveland, said to-day that Ballington Booth was unjust or mistaken in declaring that General Booth was opposed to America and American ways. He stated that he had received word from an officer high in the councils of the army that the General had for some time been contemplating the re-moval of the international headquarters from England to the United States.

Booth-Tucker's Victims. CHICAGO, April 13 .- According to the Rev. Homer C. Stuntz, of this city, Booth-Tucker, Commander of the Salvation Army in the United States, imposed a 'needlessly severe regime' on the Salvation Army officers who went out for the work in India.
Under the severity of this rule, the minister says, the army people there "died like sheep."

Wanted to Get Rid of Him.

ST. LOUIS, April 13.—Joe Hadcezake, a Pole, whose screams for mercy drew a crowd to his home, 1426 O'Fallon street, this morning, was rescued from the hands of his wife and stepson, who were trying to kill him with a hatchet. Blood covered the man's head and was spattered over the woman and her son, who desisted when the neighbors came in. The badly wounded man pointed to the hatchet and a trunk and said: "They wanted to get rid of me." When taken to the City Hospital an examination revealed the fact that the Pole's skull was crushed, and the doctors said he could not live. Mrs. Hadcezaka was arrested, but her son escaped by jumping from a second-story window.

Friendly to the British. LONDON, April 14.-A correspondent in Italy describes an unexpected visit which Emperor William, in the uniform of a British admiral, paid to the British cruiser Astrea at Syracuse on April 7. After leavng the Astrea the Emperor also visited the Italian flagship Francesco Morosini. Afterwards he had the commanders of both ships to luncheon on board the yacht Hohencollern. On this occasion he took the Enlish captain alone around his yacht, showing him every part, and especially the water-tight door which he himself had invented. This correspondent thinks that the above episode is significant of Emperor William's desire to be on friendly terms with A Rome correspondent of the Daily News says that he learns positively that as a result of the meeting between Emperor William and King Humbert at Venice it has

been decided to postpone the renewal of the dreibund until May, 1897.

Ludlow Called Home. LONDON, April 14.-Col. William Ludlow, military attache to the United States embasy, has received cable instructions to return home at the first possible opportunity. He will probably sail with his wife for New York on Saturday. Colonel Ludlow was one of the commissioners who examined the route of the proposed Nica-ragua canal in accordance with the resolution of Congress, and he has since investigated the Emperor William canal, Baltic and North Sea, the Manchester ship canal, the Suez canal and other great works of a similar character in Europe. MEXICAN OFFICIALS OF JUQUELA SLAUGHTERED BY ZIMITLANS.

Doors of Public Buildings Burned Of and Town Councillors and Others Put to Death.

CITY OF MEXICO, April 13 .- A telegram from Oaxaca City this afternoon states that the rebel Indians at the town of Juquela killed all the town councillors, school teachers, local priest, chief of police and the telegraph operator, in fact, every one holding a guests a number of paintings which he had government place. The people are in terror and troops have been sent for the relief of ashore in a launch, amid salutes from the guns afloat and ashore and the cheers of the crews, as they left the yacht. The Emperor driving the Indians into the mountains. They began their plotting in Holy week, instigated by Indian lawyers, who informed them that the new state taxes were unconstitutional, but the authorities paid no attention to the excitement among them, considering they were engaged in their usual drunken celebration of the season. But, securing arms and machetes, they made a rush for the town hall, and the prefect hastily closed the doors, which they soaked with petroleum and burned, thus effecting an entrance, sacking ments of the prefect, they grossly maltreated the women of his family, and then, turning their attention to the officials and armed servants, killed and wounded several. The scene was a horrible one, as the assault took place in the early evening, and the excite-ment of the mob was indescribable. The Indians were possessed with fury, and it was bsolutely impossible for respectable inhabitants to control them, as all were drunk and dened. The mob, after sacking the town hall, went to the federal stamp office and assaulted it, burning down the outside door with petroleum, which also communicated to the entire house, placing Co Graciada, who was on the roof with they managed to escape by the rear, jumpin for their lives. Many shops were burne after being sacked, and the Indians decorate themselves with stolen finery. They all fied on the approach of the soldiers, and are now in the hills. The revolt is local and will be suppressed. The instigators of the Indians will be severely punished, as they took advantage of their gross ignorance.
